G 11

I think that the later schedule is a great idea. It can only help students to be fully prepared for school.

I think the later schedule is a great idea because it gives students who have problems falling asleep at night time to wake up, and be able to be focused at school.

I think that the later schedule is a good idea also because it gives students time in the morning to eat. I think that a lot of students don't have enough time in the morning to do much of anything. Eating is very important it helps students to be completely focused on what they're doing.

I think that the best reason for the later schedule is that students will be able to get to school on time. A lot of students just can't make themselves get up in the morning. This causes them to be late, which this causes a lot of problems. I think that if students had another hour and a half they would be able to make it to school on time everyday.

These are ^{the reasons} why I think that the later schedule is a great idea.

Score Point: 3

This response reflects a limited degree of proficiency in persuasive writing skills. A clear position in favor of changing the school schedule is cited. Key ideas supporting this position are provided (students will be focused at school, students will have time in the morning to eat, and students will be able to get to school on time). The response is organized. However, the explanation of the key ideas is general and repetitive. A pattern of errors in sentence structure is evident.
